

Heavy Duty Machine Wash

Concentrate

PRODUCT DESCRIPTION:

Zexa Heavy Duty Machine Wash is a liquid concentrate formulated for all types of automatic feed commercial dishwashers.

It is a highly active detergent, formulated to quickly cut through grease and food soils. Water conditioners and scale neutralisers work to prevent residue and scale build-up. This protects the inner workings of the machine and maximises wash performance.

Hygienically cleans, reduces water marking and streaking on all wash-wares. Solution is highly economical, for low dosing into machines

DIRECTIONS FOR USE:

Automatic dispenser systems – Dispense 1 to 4mL per 1L of water through automatic dispensing equipment.

Note: Concentration required will vary depending on the type of machine and load weight dilution in the cleaning solution tank during the wash cycle program.

Please refer to manufacturer's recommendations.

Tube feeder (for machines with integrated chemical pump) – Simply connect feeder tube to the Machine Wash drum. Ensure dosage settings are set as directed by your supplier for your dispensing system.

DO NOT MIX WITH DETERGENT OR OTHER CHEMICALS.

PACK SIZE/S: 5L, 15L

FEATURES:

- Designed for use in automatic dishwasher dispensing systems
- Helps keep machine inner workings free from scale
- Highly concentrated solution
- Australian made

BENEFITS:

- Ensures wash efficacy & reduces potential of spills, under or overdosing
- Optimises machine performance
- Helps prevent marks on crockery & cutlery
- Economical concentrate dosage
- Made to suit Australian kitchen conditions, quality & safety requirements
