PRODUCT DESCRIPTION:

Zexa Surface Sanitiser Hospital Grade Surface Spray Disinfectant is a ready to use product effective against **SARS-CoV-2** when tested under clean conditions.

Tested as effective against Staphylococcus aureus, Pseudomonas aeruginosa & Salmonella choleraesuis (AOAC 961.02 test) & against S. aureus, E.coli, P. aeruginosa & P.vulgaris (TGA TGO 104 Option B disinfectant test) when tested under dirty conditions.

Not to be used on medical devices or therapeutic goods.

DIRECTIONS FOR USE: Ready To Use – Do Not Dilute

Follow a two-step cleaning process to ensure best results.

Step 1: Ensure that all soils or contaminants are effectively removed from the surface.

Step 2: Spray a fine mist of Zexa Surface Sanitiser onto the cleaned surface and allow to dry. Do not use a cloth to wipe as you may inadvertently contaminate the surface area with bacteria.
